

AAX::GetRPDFWithAmplitudeOne

AAX::GetRPDFWithAmplitude  
OneHalf

AAX::GetInt32RPDF

```
graph LR; A[AAX::GetRPDFWithAmplitudeOne] --> C[AAX::GetInt32RPDF]; B[AAX::GetRPDFWithAmplitudeOneHalf] --> C;
```

The diagram illustrates a mapping from two different function names to a single target function. On the left, there are two white rectangular boxes. The top box contains the text 'AAX::GetRPDFWithAmplitudeOne'. The bottom box contains the text 'AAX::GetRPDFWithAmplitude' followed by 'OneHalf' on a new line. On the right, there is a gray rectangular box containing the text 'AAX::GetInt32RPDF'. Two blue arrows originate from the right side of the two white boxes and point towards the left side of the gray box, indicating that both functions map to the same target.
