

IACFUnknown

```
graph BT; AAX_IACFPrivateDataAccess --|> IACFUnknown
```

A UML class diagram showing an inheritance relationship. The base class, IACFUnknown, is represented by a white rectangle with a black border at the top. The derived class, AAX\_IACFPrivateDataAccess, is represented by a gray rectangle with a black border at the bottom. A solid blue arrow points from the top center of the AAX\_IACFPrivateDataAccess box to the bottom center of the IACFUnknown box, indicating that AAX\_IACFPrivateDataAccess inherits from IACFUnknown.

AAX\_IACFPrivateDataAccess
