The diagram illustrates a dependency or call relationship. Two white rectangular boxes on the left represent delegate methods: 'AAX\_CUnitPrefixDisplayDelegate Decorator::StringToValue' (top) and 'AAX\_CNumberDisplayDelegate ::ValueToString' (bottom). Two blue arrows originate from the right side of these boxes and point towards a single gray rectangular box on the right labeled 'AAX\_CString::Erase'. This indicates that both delegate methods interact with or call the 'Erase' method of the 'AAX\_CString' class.
